COMING SOON – NEW COURSES FOR JANUARY 2022			

"I have enjoyed the classes and learnt a lot. It has dispelled my misconceptions about diets and foods that are good and bad for us. One of the main advantages is the tremendous support and encouragement from the other participants. It has given me a new way of life and a healthier life, not just for a week but forever."

ESCAPE-Pain Courses

If you suffer with osteoarthritis these courses are for you.

Join our [ESCAPE-pain courses](#), which aim to provide you with the skills and techniques to self-manage your hip/knee or lower back pain.

ESCAPE-pain stands for Enabling Self-management and Coping with Arthritic Pain through Exercise and is a rehabilitation programme providing education and exercise to help and encourage people with self-management of their pain. ESCAPE-pain is approved by NICE and supported by NHS England and Arthritis Research UK. It's a group programme tailored to individual needs with strong evidence to support the benefits of taking part in regular exercise and education for self-management.

There are two 5-week courses to choose from, one specialising in knee/hip pain and a new course for clients with chronic low back pain, both delivered by advisor, Aimee. It's important that you attend all the sessions (2 days per week for 5 weeks) to get the most out of the programme to help reduce pain and improve mobility and wellbeing safely.
